DIARY NOTES

3 March 1960

DD/S

25X1A9a

1. [REDACTED] telephoned to say that at a recent meeting of the GEHA Board to analyze our insurance program as compared to the other alternatives available there was no question but that our program was a better one. He is reducing the findings and conclusions to writing and will send them to me for my information.

2. [REDACTED] talked to me about my suggestion that [REDACTED] head the DD/I Feasibility Team. He said that he had checked this out quite thoroughly with his own people and that they would prefer not to have AI as head of this team. I did not push the matter any further and we agreed that I would raise the question of [REDACTED] at the Deputies' Meeting tomorrow morning.
